

# The Belonging Project

If you are a participant or staff member of any PIRS programs you are invited to be part of the Belonging Project leadership team. This project looks at what it means to **Belong** here in Canada

You will participate in a group to design a project in which all participants are invited to submit photographs on the topic of belonging.

When all the photographs are submitted you and other participants will look at them and think together about what they say about what could be done to make Canada more welcoming for newcomers.

- What you say will be heard by service providers and policy makers
- You can leave the project at any time without consequence

**We will be meeting March 4<sup>th</sup> and 11<sup>th</sup> at Burnaby Neighbourhood House from 1-4pm.**

**Contact us to learn more about the study:**
